this book focuses on how to manage sovereign debt safely and effectively the report traces the history of sovereign borrowing in latin america releases a new data set on public debt and analyzes debt s evolution highlighting the recent trend toward higher domestic debt and lower external borrowing

this as it happened review of the causes consequences and repercussions of the 2008 global financial crisis is more than a history lesson it s a look into the future these essays by dr susanne trimbath were first published between 2008 and 2015 on newgeography com they have been edited to be read as a free standing publication grouped together into the following chapters bailouts congressional hearings and legislation homeowners and mortgages federal reserve and treasury actions bank broker behavior systemic issues public reaction

commercial banking in the united states today is on shakier ground than at any time since the great depression increased competition deregulation globalization and a rising tide of bad loans have all cast doubt on how or even whether banks as we know them will survive through the 1990s and beyond how did this happen are we looking at another s l like debacle or worse what s the remedy in these uncertain times it s important to understand how the banking industry arrived at this point what s being done about it and what can be done the future of american banking lends the clear perspective you need to make sense of it all it is a story of rapid and surprising changes illustrated through revealing profiles of four banking heavyweights with decidedly different approaches citicorp chase morgan and bankers trust it is also an inside look at the strategic and organizational problems these banks and all u s banks are currently facing as well as a provocative glimpse at what the future holds and it s straight from the people in the know the book is based on more than 350 exclusive interviews with senior bank officials wall street bank analysts management consultants congressional committee staff members executive search professionals regulators and top financial journalists with one eye on the many external factors that have shaped the contemporary banking industry and the other on ample evidence of management missteps within the four banks themselves david rogers brings these key questions into sharp focus who have been the winners and losers among these and other u s commercial banks and how might it have been different which strategies have paid off which have failed abysmally and which are likely to work in the

future how has each bank's particular culture leadership and history influenced where it is today what larger lessons may other banks that are currently facing similar competitive pressures learn what are the implications of these four banks' experiences for the banking industry as a whole as it struggles to meet the challenges of the twenty first century rather than just another commentary on an ailing industry the future of american banking offers you an in depth view of the nature and causes of the predicaments banking faces today in spotlighting both the triumphs and failures of the past and the rapid fire developments of the present this lively and thought provoking book is a must read for anyone interested in what might happen in the future book jacket title summary field provided by blackwell north america inc all rights reserved

modern banking focuses on the theory and practice of banking and its prospects in the new millennium the book is written for courses in banking and finance at masters mba level or undergraduate degrees specialising in this area bank practitioners wishing to deepen and broaden their understanding of banking issues may also be attracted to this book while they often have exceptional and detailed knowledge of the areas they have worked in busy bankers may be all too unaware of the key broader issues consider the fundamental questions what is unique about a bank and what differentiates it from other financial institutions answering these questions begins to show how banks should evolve and adapt or fail if bankers know the underlying reasons for why profitable banks exist it will help them to devise strategies for sustained growth modern banking concludes with a set of case studies that give practical insight into the key issues covered in the book the core banking functions different types of banks and diversification of bank activities risk management issues and techniques global regulation basel 1 and basel 2 bank regulation in the uk us eu and japan banking in emerging markets bank failure and financial crises competitive issues from cost efficiency to mergers and acquisitions case studies including goldman sachs bankers trust deutsche bank sumitomo mitsui bancomer

financial crises have become an all too common occurrence over the past twenty years largely as a result of changes in finance brought about by increasing internationalization and integration as domestic financial systems and economies have become more interlinked weaknesses can significantly impact not only individual economies but also markets financial intermediaries and economies around the world this volume addresses the twin objectives of financial development in the context of financial

stability and the role of law in supporting both financial stability frequently seen as the avoidance of financial crisis has become an objective of both the international financial architecture and individual economies and central banks at the same time financial development is now seen to play an important role in economic growth in both financial stability and financial development law and related institutions have a central role

states that the world wide trend towards privatization liberalization and globalisation has produced substantial economic benefits this book examines the successes and failures of global liberalization and derives a globalist manifesto for public policy
